

Discover the four winners of the 2026 Eurobois Awards

The Eurobois Awards is a traditional highlight of the show that rewards the innovations presented by exhibitors. This competition, organised as part of Eurobois, sets the standard for the market, rewarding innovation, new ideas and technological progress. On Wednesday 4 February, at the award ceremony sponsored by Marc Thiercelin, skipper emeritus, 4 prizes were awarded by the professional jury, the student jury and the public, which is a new feature in 2026.

In 2026, **15 innovations** were shortlisted by a committee of experts before they were presented live at the show. Scan the QR code for the full list of nominated innovations.

1ST PRIZE AT THE EUROBOIS AWARDS

Stand 6D32

STRATO GRIP and their STRATOGRIP E800 adhesive, which is a major advance in the field of contact adhesives. It is formulated with low environmental impact solvents.

THE "PUBLIC VOTE" PRIZE

Stand 6J94

BOSCH and their new EXPERT, leader in the category of corded table saws, with cutting height and integrated sliding carriage for wide, precise crosscuts. Driven by a 2200 W motor, it has an unrivalled cutting height of 100 mm that eliminates the need to turn over the workpiece.

WHAT IS THE EUROBOIS AWARDS?

The Eurobois Awards, which is open to all exhibitors, is a launching platform for innovations in the sector that acclaims the innovative character, design, and performance of products or services, with an eye also on the contestant's CSR practices, the environmental quality of the product or service, its certification, its usefulness to professionals, and its cost effectiveness.

BOOSTED VISIBILITY

Entering the competition enables candidate companies to gain visibility in the eyes of their audience before, during and after the show. The Eurobois Awards offers the brands that are selected and rewarded, legitimacy and recognition in the marketplace. The competition is also an opportunity for professionals in the sector to meet and exchange ideas convivially.

Pitches and stand visits to convince the jury

On the first day of the exhibition, the contestants had the opportunity to present their innovation in a **five-minute pitch in the Wood Arena, the show's conference space**. This presentation was a chance to meet their audience while impressing the jury with their ability to champion their innovation. This morning, members of the jury also visited the stands of the shortlisted innovations to talk to the candidates and find out more about the new products.

The trophies for the Eurobois Awards 2026 were made by Compagnons du Devoir and engraved on site with the names of the winners.

NEW FOR 2026: THE “PUBLIC VOTE”

Professional visitors to the show were also invited to have their say in nominating the winners of this year's Eurobois Awards. With the “public vote” accessible via the Eurobois Connect application, almost 200 professionals were able to vote for their favourite innovation from among the 15 that were shortlisted.

Innovation has always been held in high esteem at Eurobois. Innovation paves the way for the future and makes it conceivable for professionals. The Eurobois Awards is a major showcase for innovation in the sector!

**ALEXANDRA MONCORGÉ — Eurobois GL events
trade show director**

THE ORGANISER GL events Exhibitions Opérations

With 200 events organised worldwide for professionals and the general public, GL events Exhibitions Opérations has unequalled expertise in organising exhibitions and trade shows – a business that must stay abreast of increasingly specialised marketing, communication and organisational techniques while retaining close ties with market players. The Eurobois exhibition is organised by the GreenTech+ division of GL events, which also manages eight other major gatherings: BEPOSITIVE, Open Energies, Expobiogaz, Hyvolution, Paysalia, Piscine Global, Rocalia and Terrentra. GreenTech+, the newly created division of the GL events group, provides

an original platform, product of the synergy between an assembly of exhibitions that touch on the common themes of ecological innovation and sustainable development. GL events created GreenTech+ to play a full role in the world's major environmental issues, based on the only format of its kind, building bridges between the sectors of the future and maximising their visibility. GreenTech+ is an accelerator committed to supporting the sector's stakeholders in their developments and in their search for the solutions of tomorrow, while instilling an ever-increasing eco-awareness among our citizens.
